1. Introduction

The Employee Monitoring Device v0.22 is an IoT device that enables employers to track and monitor employee activity in the workplace. It features a screen that displays a clock with inspirational messages. While the clock is the only visible information to the employee, additional features can be accessed via the debug menu for administrative purposes.

2. Device Overview

The Employee Monitoring Device v0.22 consists of the following components:

- Screen: Displays the current time along with inspirational messages.
- Bluetooth Mesh Connectivity: Connects to other devices in the workplace to transmit data about employee activity.
- Debug Menu: Provides access to additional features for administrative use.
- Mood lights: Enhances the stylish white case with mood-setting multi-color LED
- SD card: Allows employee to store personal information

3. Device Setup

Follow these steps to set up the Employee Monitoring Device v0.22:

1. Unbox the device and ensure all components are present.
2. Find a suitable location in the workplace to place the device.
3. Power on the device using the provided power adapter.
4. The device will automatically start up and display the clock on the screen.

4. Basic Usage

The Employee Monitoring Device v0.22 has a simple and straightforward interface. The screen displays the current time along with inspirational messages to motivate employees throughout the day. No user interaction is required for basic usage, as the device operates automatically.

5. Debug Menu

The debug menu provides access to additional features of the Employee Monitoring Device v0.22. This menu is intended for administrative use only. In the debug menu, you can enable or disable advanced features, adjust settings, and access mood enhancement features. Use caution when modifying settings in the debug menu, as it can affect the device's functionality.

6. Troubleshooting

If you encounter any issues with the Employee Monitoring Device v0.22, please try the following troubleshooting steps:

1. Ensure that the device is powered on and connected to a power source.
2. Check that the Bluetooth connectivity is active and functioning properly.
3. Restart the device by turning it off and on again.
4. If the issue persists, refer to the warranty and support section for further assistance.

7. Technical Specifications

- Dimensions: 148mm x 52mm x 52mm
- Screen Size: 320 x 240
- Connectivity: Bluetooth Mesh
- Power Source: Provided power adapter
- Compatibility: Works with most modern devices supporting Bluetooth
- Storage: SD card (512 MB included)

8. Safety Information

- This device is intended for workplace use only and should not be used for personal monitoring.
- Ensure the device is securely mounted in a location that does not obstruct employee movement or cause any safety hazards.
- Follow all applicable privacy laws and regulations when using this device.

9. Warranty and Support

The Employee Monitoring Device v0.22 comes with a limited warranty. For warranty details and support, please refer to Global Operations Directory directive #1782.r1
