1. Introduction

The Personal Assistant Device serves as your digital companion. With a screen and a mood light LED, it offers a simple yet powerful feature set to help you stay organized and inspired. The device's screen displays a clock with inspirational messages, providing you with a positive start to your day.

2. Device Overview

The Personal Assistant Device consists of the following components:

- Screen: The screen is the primary interface of the device, displaying the current time along with inspirational messages.
- Mood Light LED: The mood light LED enhances your environment by creating soothing or energizing lighting effects.

3. Device Setup

To set up the Personal Assistant Device, follow these steps:

1. Unbox the device and ensure all components are included.
2. Find a suitable location to place the device in your desired area.
3. Connect the device to a power source using the provided power adapter.
4. The device will power on automatically and display the clock with inspirational messages on the screen.

4. Basic Usage

The Personal Assistant Device offers a straightforward user interface. The screen primarily displays the current time, along with uplifting messages, providing you with daily motivation. You must ensure that the device is within an arm's length of your working space at all times. There is no need for user interaction, as the device operates automatically to ensure a seamless experience.

5. Mood Light LED

The Personal Assistant Device is equipped with a mood light LED that can create a soothing or energizing ambiance. The LED can enhance your environment and promote relaxation or focus.

6. Troubleshooting

If you encounter any issues with the Personal Assistant Device, please try the following troubleshooting steps:

1. Ensure that the device is connected to a power source and turned on.
2. Verify that the screen is functioning properly and displaying the clock with inspirational messages.
3. Check the mood light LED to ensure it is lit when the device is turned on.
4. If the device is not responding or experiencing technical difficulties, try restarting it by turning it off and on again.
5. If the issue persists, refer to the warranty and support section for further assistance.

7. Technical Specifications

- Dimensions: 148mm x 52mm x 52mm
- Screen Size: 320 x 240
- Power Source: Provided power adapter
- Compatibility: Compatible with most standard power outlets
- Storage: SD card (512 MB included)

8. Safety Information

- The Personal Assistant Device is designed for indoor use only.
- Place the device in a stable location where it is not at risk of falling or being knocked over.
- Do not expose the device to extreme temperatures, humidity, or direct sunlight.
- Do not open the device or attempt to tamper with the device.
- Keep the device away from water and other liquids to prevent damage.

9. Warranty and Support

The Personal Assistant Device comes with a limited warranty. For warranty details and support, please refer to Global Operations Directory directive #1782.r1
